

COMPANY PROFILE

Planet Home Innovations offers an exclusive range of design-led fitted kitchens and granite-topped furniture. Utmost attention is paid to the execution of product designs to suit clients' needs. We use tropical hardwood and 'unfinished' granite as key raw materials to create stunning high quality modern furniture for plush homes and offices. At Planet Home Innovations, we invite our clients to work with them to move from concept to reality.

Our most valuable asset is human resource. With a staff compliment of 20 employees spread across, Melamine, Granite, Installation and Design Departments. Planet Home pledges utmost quality service to all its customers.

PRODUCT RANGE AND CAPABILITIES

The principal activities of Planet Home Innovations include production and installation of melamine cabinetry (kitchen units, wardrobes, etc) and supply of granite products.

Our flagship offers an exclusive range of products, crafted to perfection that brings a feeling of majesty and opulence to a variety of high-end applications, infused with the natural beauty into some of the most sought-after properties in Zambia. Our Kitchen cupboards are largely made out of melamine boards.

KITCHENS/CUT & EDGE

Our Kitchen/Cut & Edge department is uniquely positioned and structured to cater for all classes of customers.

We offer contemporary designed Kitchens, Bars, Receptions, Wardrobes, Office Furniture and Vanities are built to the highest standard and utmost attention to suit customer needs

GRANITE

Our wide Granite color range provides our customers with an open-ended choice for various applications.

It is our company policy to buy our granite from reputable commercial dealers who provide an environmental choice which does not pollute the air or cause any irreversible environmental harm.

Our programmable state of the Art Granite cutting equipment gives us a competitive edge through its tremendous capabilities.

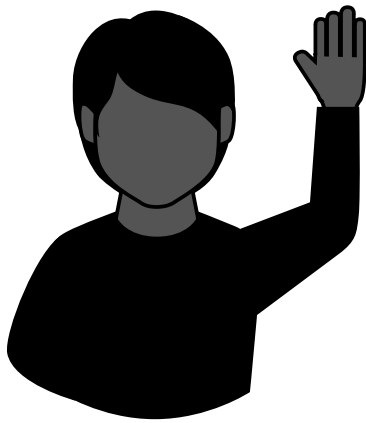

Our high efficiency has earned us trust and the most preferred supplier of quality Granite on the market.

PRODUCTION

Our plant is able to produce the following on a monthly basis:

- 25 standard kitchens units
- 8 wardrobes
- cut 500 square meters of granite.

Enquiry>Site Measurement>3D Design/Quotation>Presentation to Client>Confirmation>Factory works>Installation
